

PATH Workflow – Tips & Tricks

EDA'ing – First things First

Always be sure to Enter Data As (EDA) immediately when you start working in the system.

As we discussed on the call, you should first enter the client profile and client demographics under the Coordinated Entry EDA. This will give everyone access to the client's basic information.

Enter Data As Provider Search

Provider Search

Search for Providers by using keywords from the Provider Name or Description.

Search Show Advanced Options

Search Clear

Provider Number

2. Choose your program

Provider Search Results Street Outreach (SO) - Clients not in shelter
Support Services Only (SSO) - Clients in shelter

Provider	Level	Phone	Location	Last Updated
AMDD - PATH Billings Street Outreach (148)	Level 3	Unknown	Unknown	03/27/2020
AMDD - PATH Billings Support Services Only (153)	Level 3	Unknown	Unknown	03/23/2020
AMDD - PATH Butte Street Outreach (149)	Level 3	Unknown	Unknown	03/27/2020
AMDD - PATH Butte Support Services Only (154)	Level 3	Unknown	Unknown	03/23/2020
AMDD - PATH Missoula Street Outreach (150)	Level 3	Unknown	Unknown	03/27/2020
AMDD - PATH Missoula Support Services Only (155)	Level 3	Unknown	Unknown	03/23/2020

Coordinated Entry - Billings (163)	Level 2	Unknown	Unknown	09/25/2020

Showing 1-8 of 8

You should then switch your EDA to the appropriate PATH provider, either a Street Outreach provider (if you first met the client on the streets where they were not staying in a shelter/safe haven) or a Support Services Only provider (if you met the client in a shelter/safe haven where they were staying).

Remember: The PATH Support Services providers are protected. This means they only share information between the PATH providers. Information entered under this EDA will not be shared with any other providers. For this reason, please remember to always create new client profiles while EDAing as your local coordinated entry provider FIRST so all other providers can locate the profile.

The PATH Specifics

Client Information

When entering the assessment or intake information, you will always choose PATH as the Type. This lets the system know what assessment to pull up for your entry.

Project Start Data - (179927) Test, Pamela

Household Members

This Client is not a member of any Households.

Project Start Data - (179927) Test, Pamela

Provider *	AMDD - PATH Billings Street Outreach (148)
Type *	PATH
Project Start Date *	01 / 25 / 2021 3 : 35 : 30 PM

The Entry, Update, or Exit assessment should match the program type for which you are EDA'ing. That is HHS PATH Entry (Update or Exit) for SO [street outreach] or HHS PATH Entry (Update or Exit) for SSO [support services only].

Entry Assessment

Household Members

All the information you see on screen whether it be the Entry, Update, or Exit assessment is required by HUD. However, there are some data elements that are specific to PATH. Those are the Current Living Situation sub-assessment, Date of Engagement, Date of PATH Status Determination, and Client Became Enrolled in PATH and If no, reason not enrolled questions.

Current Living Situation

This sub-assessment is to be completed each time you “engage” with the client. The first time will be upon your initial meeting with the client. Each subsequent time, this sub-assessment should be filled out as an “Update” and not under the Entry assessment.

Date of Engagement

This is a very important data element. This must be completed for the client to populate on any reports. This only occurs once. This is the date that the client agreed to work with you in order to help them with

services or housing. This can be the same as the entry date or after the initial entry date, but it should never be before the entry date.

Date of PATH Status Determination

This is also a very important data element. This is the date that you determined if the client was eligible for PATH services. Again, it can be after the initial entry date, but it can never be before. It may be the same as the entry and/or date of engagement or it may be a later date.

Client Became Enrolled in PATH

This is a simple yes or no question, but it must be answered for the client to show up on the PATH report.

If no, reason not enrolled

If the client was not able to be enrolled, you must provide one of the reasons listed on the drop down. You would then exit the client from the program.

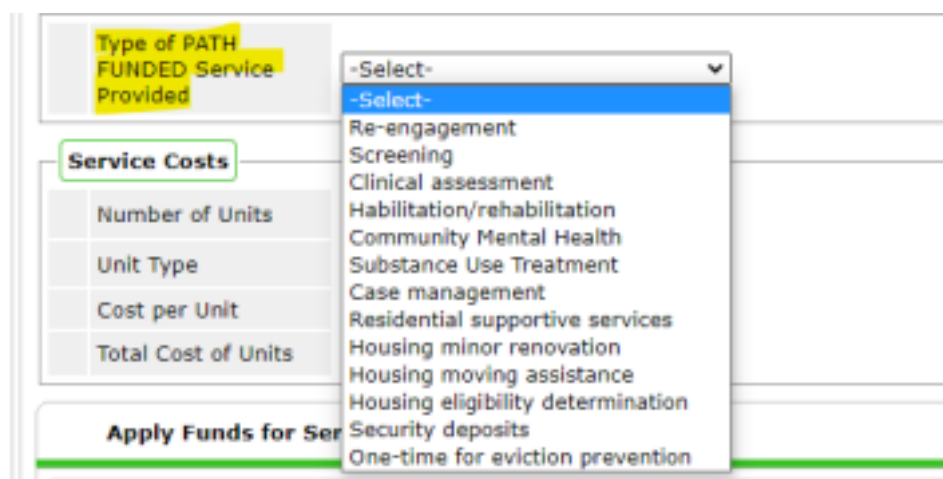

Service Transactions

Service Transactions are the other crucial part of data collection in HMIS. In order for the PATH report to be accurate and complete each client should have services and/or referrals.

Services

There are several services that have been approved for the PATH programs. These services have been added to the quick list for “Service Type”. The more difficult part is knowing which service falls under “Type of PATH FUNDED Service Provided”. For this please use the crosswalk provided in [Appendix A](#).

The important part of creating a service is to complete the “Type of PATH FUNDED Service Provided”. This must be completed in order for the service to populate on the PATH report.

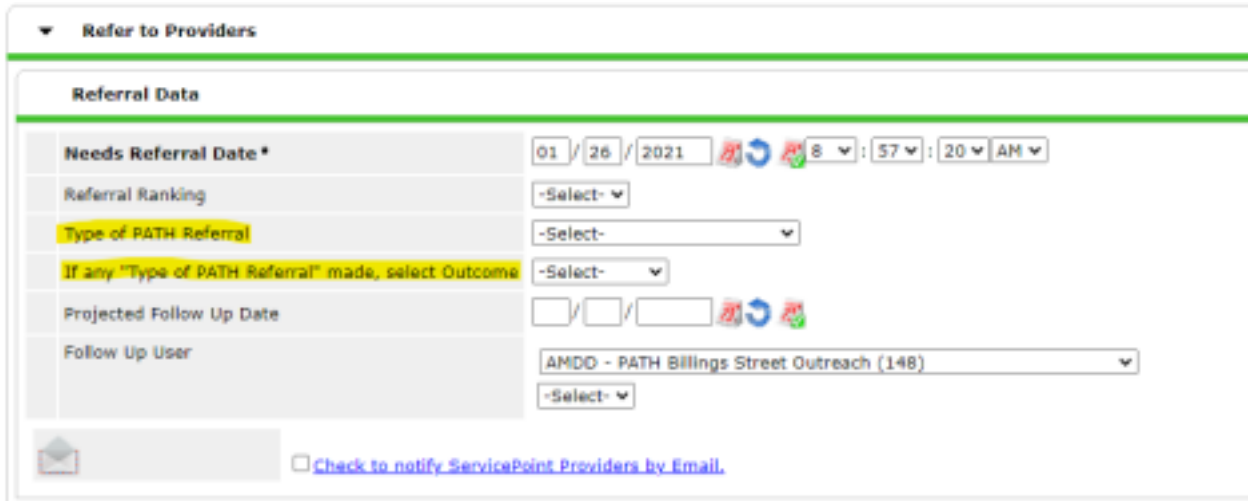

The screenshot shows a web-based form for entering service data. A dropdown menu is open for the field 'Type of PATH FUNDED Service Provided'. The dropdown list includes the following options: -Select-, -Select-, Re-engagement, Screening, Clinical assessment, Habilitation/rehabilitation, Community Mental Health, Substance Use Treatment, Case management, Residential supportive services, Housing minor renovation, Housing moving assistance, Housing eligibility determination, Security deposits, and One-time for eviction prevention. To the left of the dropdown, there is a section titled 'Service Costs' with a table containing the following fields: Number of Units, Unit Type, Cost per Unit, and Total Cost of Units. Below the table is a button labeled 'Apply Funds for Ser'.

Referrals

Referrals are the second half of Service Transactions. Since many of the providers you work with are not part of the HMIS system, typically you will be making the referral back to your own provider.

The data elements specific to PATH are “Type of PATH Referral” and “If any ‘Type of PATH Referral’ made, select Outcome”. Both of these need to be completed in order for the referral to show up on the PATH report.

Refer to Providers

Projected Follow Up Date / /

Follow Up User AMDD - PATH Billings Street Outreach (148)

☐ Check to notify ServicePoint Providers by Email.

With both Services and Referrals, and unlike the Entry, Update, and Exit Assessments, most of the other questions are not required.

Reaching Out

This document just covers what is required for PATH input into HMIS. It assumes you have taken the New User Training and know the basics of using ServicePoint. If however, you have questions about the PATH data elements or general questions about HMIS, please feel free to contact Pathways MISI. You can email us at support@pcni.org or visit our support portal at help.pathwaysmisi.org. If you need immediate assistance, call us at 1.880.536.6474. Remember – We are always happy to help!

P1 – Services Provided – PATH Funded

Record service for Head of Household when a service benefits the whole household. Services recorded only for Heads of Households and Adults. Record once, the first time the service is provided, but it may be recorded any time (only the first Service for each type (recorded after PATH enrollment) is reported on the PATH Report.
